

# Author's guidelines

**Please notice:** The paper must not be published previously in another journal!

The article should extend over approx. 5 – 10 printed pages in the journal. Required data are:

## Text

- Please supply the text as a word processing file in English or/and German language
- Length approx. 10 000 – 20 000 characters
- Short, concise title (not more than 100 characters)
- Information on the author and if applicable the co-authors: Full names with academic titles, company/university (with city/country) as well as professional occupation/position
- Picture and short vita of the author, not more than 500 characters
- Summary consisting of a maximum of 500 characters

## Figures/Tables

- Please number/caption figures consecutively beginning with Fig. 1
- Please number/caption tables consecutively beginning with Tab. 1
- The most advantageous number of figures is 1 to 2 per printed page of the journal
- Graphic data files e.g. as tiff, eps or jpg, resolution with format 10 x 15 cm in 300 dpi
- Please do not embed digital figures in the text or in the Word document!
- Please include a high-resolution image with figure caption strikingly highlighting the content of your contribution, with format covering at least 1/2 page (at least 21 x 15 cm) - it introduces your article
- All figure and table captions should be placed at the end of the text with consecutive numbering as a list

## Literature

- The literature should be placed at the end of the text
- The bibliography references must be numbered consecutively in square brackets [1] to [n]
- The bibliography index (should contain not too many and only relevant bibliography quotes)
